TIP - Social Care

CYPSP Structure ⚠

- Community plans linked to CYPSP
- Data infrastructure
- Credibility
- CYPSP infrastructure
- Outcomes Groups

Residential Care

- Need to join up/ tap into regional funding coming down to Trusts
- Regional practice network
- Good supervision processes esp psychology
- Heavily regulated
- Not universal language
- Good standards of practice
- Good training with children with long-term needs
- Well educated staff. Have evolved practices ⚠
- Stigma for young people

Staff care - self-care training. Make connection to human resources - how do we build in culture of 'looking after yourself'?

- Need to support all to look at family system. Do not focus on child only

Many staff have a high level of training - SW, nursing in social care, Psychology, AHPs

Gateway, RESWs

- Threshold for sharing information with other agencies too high
  - No information sharing agreement - departments
- Lack of accessibility to cross-trust information to staff
  - Better use of understanding ACE with with others. Better referrals
- Implement Encompass programme
  - Increase co-location, e.g. PSNI, schools teams
- Only have 10 days to deal with a family
  - System passed young person on - repeated stories and assessments
- Joint protocol trained staff
- Regional contact (can't read next word)

LAC ⚠

- Existing trauma models exist in each Trust - we can build
- Influence the regional review of LAC systems

Foster parents, Adoptive parents

- M. Burns had funding for this - ACE could be included
- Paid carers could be encouraged to accredited course
- ❍ Embed via LAC in education review
- Delays in court system
- Regional training programmes
- ❍ EITP Home on Time project linkages

Child Care Partnerships

- Incorporate via CCP training manual

Children with disabilities

- No regional secure mental health facilities
- Huge waiting lists, resource issues
- Residential respite struggle to cope with children's needs
- Environment (buildings)
- ❍ Link to education (joint training) parents
- Look at family system - not only child with disability - look at other kids
- Good multidisciplinary teams established
- Good parent partnerships
- LAW

Council

- Need TIP/ ACE training

Community Development

- New course at UU SW using community development appraoch

FIS/ FIT

- Build into SW training ✓
- Too many intervention approaches - inconsistent
- Stigma
  - Development of SoS, BBF
  - No interagency governance system
- Culture
- Isolated teams - closed
- Supervision
- Need staff support - stress
- Engaged with traumatised families

Guardian ad Litem

- YJA already began discussions with courts
- Family Court Officers - court systems
- Training needed around avoiding re-traumatising

Family Support Hubs

- Embed as measurement via FS core members survey
- Front-door for families
- Regional CYPSP structure to embed consistency

Key

- Strength
- Idea
  - ⚠ Priority
- Need/ Gap
  - ✓ Underway
- Barrier
  - △ Less agreement
